Daily Safety Topics

Mental Health Awareness: May is mental health awareness month. In the construction industry, studies show 64% of U.S. workers reporting anxiety or depression. Mastec offers the Employee Assistance Program, and reaching out to them or some other form of help should always be known to be an option. Lets take care of ourselves physically, and mentally.
High Winds: High winds are very frequently dealt with on site. While they can postpone work, that is not the only challenge they pose. They can blow away tarps, tools, trash, or even cause sudden gusts that can make driving dangerous. When dealing with high winds, lets make sure trash is disposed of/stored properly, as well as tools and anything else that can be blown away in the wind.
